### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach an upper stage adapted to releasably engage a supply and waste cartridge, the upper stage including a loading segment adapted to engage and move blades contained within the supply cartridge into a cutting position; means for powering the movement of the blades and clamping mechanism; and means for electronically controlling all of the functions of the apparatus as set forth in claims 14 and 15.

Pickett (4,700,600) teaches an upper stage (see Fig. 1), a fixed support plate 20, a clamping plate having clamping surface 65, a pivot means 71 and a drive shaft having a clamping cam 60. However, Pickett fails to teach an upper stage adapted to releasably engage a supply and waste cartridge, the upper stage including a loading segment adapted to engage and move blades contained within the supply cartridge into a cutting position; means for powering the movement of the blades and clamping mechanism; and means for electronically controlling all of the functions of the apparatus as set forth in claims 14 and 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Omar Flores-Sánchez whose telephone number is 571-272-4507. The examiner can normally be reached on 8:00-5:00.
